

New! 2070 Retirement Strategy

PORTFOLIO OVERVIEW

A Retirement Strategy Fund is a target-date fund and contains a diversified investment mix that adjusts automatically over time. The Fund is monitored regularly, and its investment mix changes as the target date approaches. When you're in your early working years, the emphasis of the Fund is on growth in order to build savings. As you move toward retirement (and continuing 15 years beyond your target date for retirement), the investments of the Fund gradually evolve, becoming more conservative to help protect against market fluctuations—and it all happens automatically.

OBJECTIVE

Seek the highest total return over time consistent with the Retirement Strategy Fund's investment mix.

INVESTMENT STRATEGY

- A diversified portfolio of equities (also known as stocks), bonds (also known as fixed income) and other diversifying investments built for investors who anticipate retiring around 2070—typically those born in 2003 or after.
- Investment mix becomes progressively more conservative over time as the Retirement Strategy Fund approaches and passes through its target date for retirement.

PRIMARY INVESTMENTS

- Equity holdings are diversified across investment styles, company sizes (including both publicly traded and privately held companies) and geographic regions, and also include global real estate investment trusts (REITs).

- The bond portion of the Retirement Strategy Fund invests primarily in investment-grade bonds, and also includes high-yield bonds.
- The Funds invest in real assets, including global REITs, private real estate and tangible assets, which may help diversify equity risk and provide inflation protection.
- The Washington State Investment Board (WSIB) Total Allocation Portfolio (TAP) invests globally across five major asset classes, which comprise 30% public equity, 19% fixed income, 25% private equity, 18% real estate and 8% tangible assets.*

*TAP long-term policy targets are as of October 18, 2021. For more information about TAP, please refer to the TAP investment option on the DRS website.

MANAGER SUMMARY

The Retirement Strategy Funds are provided by the WSIB. The WSIB has selected AllianceBernstein L.P. (AB) to help manage this custom series of target-date funds. The WSIB determined the Total Allocation Portfolio (TAP) allocation by age within the Retirement Strategy Funds, after which AB completed the asset-allocation design utilizing the remaining asset classes. In addition, AB actively manages the Short-Term Bond, High-Yield Bond, Global REIT, and US Small and Mid-Cap Equity investment components. BlackRock Institutional Trust Company (BTC) passively manages the US Large Cap Equity and Global Equity (excluding US Equity) components. Under the direction and oversight of the WSIB, TAP assets are primarily managed by external investment professionals and partners. The fixed-income portfolio for the TAP is internally managed by WSIB staff. WSIB's internal fixed-income staff also actively manages the Intermediate-Term Bond component and passively manages the Inflation-Protected Securities component.

Investments Become More Conservative Over Time

Annualized Performance*

	Qtr.	1 Year	3 Years	5 Years	Since Inception
2070 Retirement Strategy Fund	-	-	-	-	-
2070 Composite Benchmark	-	-	-	-	-

* Please note the portfolio's estimated inception date is 1/6/25. Periods of less than one year represent cumulative returns. Currently, there is no performance to report.

† The estimated fee above is the most current fund management fee for the 2065 Retirement Strategy Fund, which is similar to the 2070 Retirement Strategy Fund. The above fee may change. The fund returns are reflected net of an annual Investment Management Fee and Investment Management Administrative Costs, including, but not limited to, accounting, custody and audit fees. The fund returns do not reflect the Plan 3 fees (recordkeeping fee 0.0740% and WSIB 0.0174%), or the Deferred Compensation Program (DCP)/Judicial Retirement Account (JRA). Administrative fees (recordkeeping 0.0560%, WSIB 0.0174% and DRS 0.0420%). Additional fee data is available online.

BENCHMARK RETURN NOTES

The benchmark for a Retirement Strategy Fund is a customized benchmark that has the same target asset allocation as the Fund and uses index returns to represent performance of the asset classes. The benchmark returns are calculated by weighting the monthly index returns of each asset class by the Fund's monthly target allocation for each asset class. Target allocations adjust quarterly in accordance with the Retirement Strategy Fund's standard glide path. The S&P 500 Index is used to represent the allocation to US Large Cap Equity, Russell 2500 Value to represent US Small/Mid-Cap Value Equity, Russell 2500 Growth to represent US Small/Mid-Cap Growth Equity, MSCI EAFE (inception through 9/30/13) and MSCI ACWI ex-USA IMI (thereafter) to represent Global Equity (excluding US Equity), FTSE EPRA/NAREIT Developed to represent Global REIT, Bloomberg US Intermediate Credit to represent Intermediate-Term Bond, Bloomberg High Yield (2% Constrained) to represent High-Yield Bond, Bloomberg US TIPS to represent Inflation-Protected Securities, ICE BofA Merrill Lynch 1-3 Year Treasury to represent Short-Term Bond, and a weighting of 69% MSCI ACWI IMI w/US Gross and 31% Barclays Capital Universal to represent the WSIB TAP with a one-month lag. Prior to January 2012, the WSIB TAP benchmark reflected different percentage weightings and target indices.

A WORD ABOUT RISK

Before investing for retirement, there are many factors to consider, including your time horizon, retirement needs, goals and assets (income and investments outside of those in your employer-sponsored retirement plan). You should view the Retirement Strategy Funds as one part of your entire plan for retirement income.

The Retirement Strategy Funds' underlying investments include international companies, which involve such risks as currency fluctuations, economic instability and political developments. The portfolios also invest some of their assets in small and midsize companies. Such investments increase the risk of greater price fluctuations. In addition, the portfolios have a portion of their assets in bonds. Investments in bonds are subject to interest-rate risk, credit risk and inflation risk. Furthermore, the portfolios invest part of their assets in the WSIB Total Allocation Portfolio (TAP), which includes investments in private equity, real estate and tangible assets. These asset classes add diversification within the portfolios and provide access to long-term illiquid investment opportunities otherwise not available to most individuals. These investments are considered riskier than publicly traded investments but can offer the potential for greater returns than traditional public equity investments when part of a larger, balanced portfolio. As with all investments, there is a risk of not meeting your retirement income needs. Because the Retirement Strategy Funds are managed to specific retirement dates, you may be taking on greater risk if your actual year of retirement differs dramatically from what you estimated.

Past performance does not guarantee future results. You should consider the investment objectives, risks, charges and expenses of the Retirement Strategy Funds carefully before investing. The Retirement Strategy Funds are a customized product, not a registered investment company, and interests in the Funds have not been registered with the Securities Exchange Commission. Therefore, there is no prospectus for these Funds. The Funds are only available in the Deferred Compensation Program and Plan 3.
